Financial and Operational Highlights

Consolidated revenues rose to TL 86.4 billion from TL 77.2 billion a year ago with a strong 11.9% growth. The largest contribution to consolidated revenue growth came from information & communication technologies project revenues, while YoY increases in fixed broadband and corporate data revenues continued to support consolidated revenue growth as in previous quarters. Mobile revenues, which grew slightly below inflation in the first half of the year, recorded real growth YoY this quarter thanks to the actions we took. Excluding the IFRIC 12 accounting impact, Q3'26 revenue was TL 79.2 billion, up 10.9% YoY. Strong growth continued broadly across segments, including 6.7% increase in fixed broadband, 2.2% in mobile, 3.7% in TV, 15.6% in corporate data, 13.5% in international and 78.9% in other revenues, while fixed voice contracted by 6.4%.

EBITDA grew 6.9% YoY from TL 34.6 billion to TL 37 billion, with EBITDA margin at 42.9%. EBITDA margin was affected by higher revenues from relatively low-margin projects. Excluding the IFRIC 12 accounting impact, EBITDA margin was 45.7%.

With TL 3.9 billion of tax expense, the effective tax rate declined to 33.4% from 36.9% in the previous quarter. The deviation from the statutory corporate tax rate was largely driven by the inflation accounting impact. As a result, we recorded TL 7.7 billion of net income in the quarter.

Our total subscriber base reached 58.5 million with 905K net additions QoQ in Q3'26 and we maintained our leadership. Excluding the 121K loss in the fixed voice segment, quarterly net additions exceeded 1 million. The highest contribution once again came from the mobile segment with a remarkable performance. In parallel, total net additions reached 2 million in the first nine months, while excluding the fixed voice segment this figure was 2.4 million.
